Ok so I was testing the links using your report2 and it wasn't working so I made some changes to your code. The I realized that I'd wiped out my changes to the SQL file. When I updated the SQL file it also updated your report2 page (I just took out some quotes and stuff). So do a compare with your branch and you can remerge your changes.

Maybe I'm looking in the wrong place, but I'm not seeing any changes to R2. I'll keep looking. Sometimes I don't see updates for a while, even on the browser version. If you want to give me a call at 208-243-2864, I'm free this afternoon.

Ok, maybe it didn't get pushed. I just saw "two assets" and those where the two files I'd changed. If not, then don't worry about it. It works either way.
Thanks,
